En OpenRoot[1] te dan una cuenta de root totalmente gratuita, para que hagas lo que quieras, lo he probado y funciona perfectamente, las instruciones son ...

How do I login to openroot?
1. telnet to sekt7.org port 30.
2. login as openroot with the password Gotroot
3. su to root with the password Ihatelamers

If you have any difficulties logging on, either of these situations could've happened: (a) someone has messed up the system, in which you have to wait until it auto-reimages itself OR (b) it is in the process of auto-reimaging itself. Openroot restores itself every hour, which is a process that takes around ten minutes.

IRC
We have an irc channel, #openroot on irc.openprojects.net. I'm kaworu, mostly on. Come to ask questions, or just talk. Whatever.

Esto es lo que sale cuando conectas con ellos:

Last login: Mon Dec 18 07:56:20 from 139.130.75.84 Copyright (c) 1980, 1983, 1986, 1988, 1990, 1991, 1993, 1994 The Regents of the University of California. All rights reserved.

FreeBSD 5.0-CURRENT-20001208-JPSNAP (R00TUS) #0: Mon Dec 11 20:03:30 GMT 2000 48mb RAM, 6gb drive, p75. We're moving up in this world.

Openroot V3:
Welcome to Openroot. Openroot is a community where people can (a) learn, (b) experiment, (c) do whatever the hell they want, and I mean it. Fork bomb it if you wish. I'm more pessimistic now. Anyways, I've made /etc writable again

Thanks,
kaworu - Openroot Founder.
